

THE CHANCERY

HOTEL

Energy Policy Statement 2025

The Chancery Hotel is fully committed to the efficient usage of energy at its facilities, in line with our 3 Pillar Sustainability Model. We believe in preserving natural resources, reducing atmospheric emissions, and mitigating the effects of climate change. Our efforts aim to deliver a healthier, more sustainable environment, and associated cost efficiencies, benefiting our staff, guests, and the communities we serve.

To achieve these goals, The Chancery Hotel will:

- Use this policy as a framework for setting and reviewing energy objectives and targets. This will help improve energy performance and reduce the consumption of relevant energy sources. Management will ensure the availability of necessary information and resources, support the purchase of energy-efficient products and services, and design for energy performance improvement.

THE CHANCERY

HOTEL

- Ensure compliance with all applicable legal requirements related to energy aspects, as well as other requirements to which the organization subscribes, including energy efficiency and the use and consumption of energy. We will also adapt our operations and facilities to comply with future legal changes and establish common standards for energy efficiency management across all areas of our business.
- Promote greater awareness among all stakeholders by providing reliable and transparent information regarding our energy consumption, corresponding greenhouse gas emissions, and the improvement actions undertaken.
- The Chancery Hotel is dedicated to fostering an energy-efficient culture and continuously improving our energy performance for a sustainable future.
